

# MARAND PRECISION ENGINEERING

Marand describes itself as an innovation business. We provide tooling, automated solutions and advanced products to many of the largest aerospace, defence, mining and manufacturing businesses across the globe. Over the past 30 years, we have supplied Boeing with a range of advanced production systems and components. Our purpose is to 'Engineer. Manufacture. Sustain. A Better future. Together'. Globalisation, travel and security are all examples of how Boeing contributes to a better world and at Marand, we are pleased to play our part. This provides a better future for our employees, their families and the communities we live and work in.

## BOEING PRODUCTS ASSOCIATED WITH SUPPLIER

Marand currently provides Boeing with production tooling, automated facilities and aerospace components for the 737, 737 Max, 787, CH-47 Chinook and MQ-28 Ghost Bat. Previously Marand has also provided components for the 747, 757, 767 and F/A-18 programs.

### Q: How did the company get started?

A: Marand started in 1969 as a one-person operation in Melbourne, Australia providing quality production tooling and fixtures. From 1980 into 2000, Marand developed into Australia's largest automated production facility provider primarily supporting the automotive, aerospace and defence markets.

### Q: What has been the proudest moment in your company's history?

A: One of our proudest moments was being selected to design and develop critical innovative advanced productive systems to support the 787 program at Boeing Aerostructures Australia, successfully demonstrating Marand's diversification from the automotive industry.

### Q: How do you incorporate technology and innovation into your company?

A: As Australia's largest automated production systems supplier, Marand has remained at the forefront of advanced production methods and technologies through continual exposure and investment. Marand has implemented the latest Industry 4.0 methods, robotic handling and welding systems, automated guided vehicles, special purpose and ergonomic equipment solutions.

### Q: Why is it important to be considered a small, diverse business or to champion diversity on your team?

A: Diversity has been key to Marand's innovation success. Diversity enables Marand to get the best talent into our business to support our customers.

### Q: What's an interesting fact about the company?

A: In addition to being Australia's largest automated production facility provider, Marand is Australia's second largest aerostructures manufacturer, after Boeing Australia.
